EXECUTIVE SUMMARY

Computer Science graduate with a strong foundation in React.js, JavaScript (ES6), Node.js, Express.js, MongoDB, and Python. Seeking a Full Stack Developer, Frontend Developer, Software Developer or position to apply and expand technical expertise.

EDUCATION

B.Sc. Computer Science , Seethalakshmi Ramaswami College CGPA: 9. 50 (86%)	2023 – 2026
HSC , Holy Redeemer Girls Higher Secondary School 84%	2023

EXPERIENCE & INTERNSHIPS

IT Trainer Intern , Jeyram Educational Trust • Working as an IT trainer gaining hands-on experience in frontend development, HDCA concepts, and Python programming. Assisted in building basic web interfaces and strengthening core programming and problem-solving skills.	03/2026 – Present Trichy
Data Transfer Group Intern , BHEL • Completed internship at Bharat Heavy Electricals Limited (BHEL), Trichy. • Worked on data transfer systems and enterprise workflows. • Gained experience in data exchange, system integration, and digital connectivity.	04/2025 – 05/2025 Trichy
Python Intern , Livewire • Completed internship focused on Python programming and application development. • Developed an NLP-based chatbot using Python to provide interactive tourist assistance and enhance user experience. • Strengthened skills in automation, problem-solving, and AI applications.	11/2024 – 12/2024 Trichy

TECHNICAL SKILLS

Programming Languages: Python, Javascript(ES6), Java
Database: MySQL, Microsoft SQL Server, MongoDB
Frontend Tech: React.js, HTML5, CSS, Bootstrap, JQuery, Responsive Web
Backend Technologies: Node.js, Express.js, Django
Design & Productivity Tools: Canva, Adobe Photoshop, MSOffice, Git, GitHub, VS Code
Core Concepts: Data Structures & Algorithms(DSA), REST APIs, CRUD, Component-Based Architecture

CERTIFICATES

Diploma in Information Technology , SRC INFO School (2023 -2025)
Web Designing Course , Jeyram Education Trust (PMKVY 2025)
Course on Full-Stack (MERN) , Livewire Trichy (2026)

PROJECTS

GlassCRUD: Core Node.js Profile Manager • A dynamic web interface built natively with Node.js, MongoDB, HTML, and CSS. It pairs raw backend routing with a sleek glassmorphism UI to display and update database records instantly without external frameworks.
Netflix Style EdTech Portfolio • Developed a high-performance React-based EdTech single-page application for Livewire, featuring a premium Glassmorphism UI, Netflix-inspired video carousels, responsive navigation, and smooth animations using React, Material-UI (MUI), and React Bits to deliver an engaging user experience.
Wild Motions – Car Collection Website • Developed a modern React.js car showcase platform featuring reusable components, dynamic rendering, and custom hooks. Integrated seamless routing, dark/light theme switching, and responsive design for an optimized user experience.
Melody Stream(Django Frontend Spotify Simulation) • Built a frontend-only music player interface using Django templates, inspired by modern music streaming platforms. Designed a responsive UI with playlist layout, album display, and basic player controls. Focused on clean design and user experience.
Cosmetic suggestion based on skin condition using machine learning • Developed an AI system using image processing to detect skin types (Oily, Dry, Normal) and provide personalized cosmetic recommendations.
